

Chasing the Light DVD released at FOCUS 2008

A movingimagemedia co-production with David Noton Photography, "Chasing the Light" is an inspirational and educational film exploring the essentials of landscape photography.

The "Chasing the Light" DVD was released on the Lee Filters stand at this year's FOCUS ON IMAGING show in the UK (Birmingham NEC, 24-27 February 2008). Lee Filters have a long-standing association with David Noton.

Chasing the Light is a 90 minute programme exploring the essentials of location photography, location finding, previsualisation, understanding natural light, composition and colour. The film examines the development of a photographic vision with practical hands on demonstrations, insights and examples at a number of inspiring locations and dramatic settings from a misty dawn at Glastonbury to the cliffs of Lands End and the autumnal glens of the New Forest in the south of England.

Extracts from the programme were shown on the Lee Filters stand throughout the show and were available for purchase on the stand. The DVD is available directly from David Noton's secure online website shop.

We have received the following email from people all over the globe who have purchased the program - we are very grateful to them all (names and addresses on file)...

Subject: dvd

the dvd (chasing the light) was fantastic to watch, i have watched it twice already and plan to watch it again to pick some more tips up. The photos i seen on this dvd were breathtaking to say the least i hope they will be more just like it and i plan to get your book aswell....

well keep up the good work.....brian.

Subject: Feedback

Dear David,

Just received and watched your DVD, and I really enjoyed it. I found some parts particularly informative, and was pleased to see how the video camera represented what you normally see compared to the use of ND grad filters in the final images (I've had some on order for about 3 months now, and can't wait to receive them)!!

Really informative and also very inspirational.

Best regards,

Ash

Subject: Re: David Noton - Chasing the Light DVD

Hi David - just to let you know I received the DVD a couple of days ago and have been savouring it and enjoying it for the last 2 evenings. Its truly wonderful, very informative and I hope to put a lot of your advice into practice. I'm a wedding photographer by trade, though landscapes are my passion so its a pleasure to see such a great DVD. I'll definitely be buying the book too.

Many thanks again for a superb product,

Kind regards

David McClean

Hi David,

I bought your DVD at Focus at the NEC on Tuesday blew me away! I have only been taking photographs for just over a year, but have had quite a bit of success. I put the DVD on when I got back from the exhibition just to have a quick look, and ended up watching it all! I had been up since 5am to get to the show, and your DVD kept me up until the early hours of the next morning!

Very informative and a real inspiration; I will be recommending this one to everyone!

Thanks again

Paul

Subject: re: David Noton - Chasing the Light DVD - now available

Hi David

Just wanted to say how much I enjoyed your DVD. It arrived this morning and I have spent the evening totally engrossed in it. Will no doubt watch it several more times too before I am done!

I'm sure it must have taken many hours of filming to produce those 90 minutes but they were well worth it. Absolutely fascinating to see how you work. It's got me wanting to go out and take some pics but the conditions are really not great here at the moment.

Anyway I just thought you might like to hear some positive feedback seeing as it's the first week but I am sure there will be plenty to come. Like I said, absolutely fascinating.

Still read all your stuff and am continually totally inspired by your work.

All the best

Sandy

Subject: FAO David re: DVD....

Hello David,

Got your DVD from Focus - really enjoyed it. What a superb introduction to those taking their first steps in landscape photography and an inspiration to the more obsessed like myself.

Fantastic !

Cheers

Pete

please pass on my thanks to david for a smashing dvd great way of teaching people i hope you will do more of this type of teaching method

many thanks LES PUGH

Just a quick note to say I really enjoyed the dvd, very informative
I'm looking forward to the book

Regards

Glyn

Subject: Chasing the Light DVD

Hello David,

I'm a portuguese photographer fan of you work. For me you are one of the best landscapes photographer. I have order your DVD "Chasing the Light" and i watch him yesterday, it's amazing and have wonderfull photos and great explanations.

Is the best photography DVD that i have seen. After i watch the DVD i go to the internet and pre-order your book "Waiting the Light". Your work is trully inspiring.

Keep us showing your great work.

Best Regards

Rui Vieira

Hi Just had to let you all know how much I enjoyed your DVD 'Chasing the light', excellent work. Looking forward to your exhibition at the OXO gallery.

Thanks very much.

Bruce.

Hi David

Just a short mail to say thank you for deciding to put together the Chasing The Light DVD, I've been looking forward to watching this DVD since it was first mentioned it on your website. The way you explain and present this DVD is brilliant, and I think well worth the price. Fingers crossed that my girlfriend will have noticed my subtle hint's and buy your book to accompany the DVD for my birthday in April.

Many thanks again, and your picture's are amazing and love your Practical Photography column

Regards

Wayne Fowler
